

**COMMERCIAL
GROWERS OF
WISCONSIN**

Membership Meeting

WHEN?:

Thursday, April 16th 2026. **Meeting starts at 5:30pm.** Come early at 5pm for a behind the scenes tour. Food & beverages will be provided.

WHERE?:

CGW Member **K&W Greenery** will be hosting. They are located at **1328 US-14, Janesville, WI 53545**

TOPIC?:

What Caused That?!?!

CGW member John Hoban of ICL will be discussing a variety of plant damage symptoms, what caused them, and how to remedy them.

John will also be accepting water samples to be tested.

For best water sample results:

- Water bottles need to be triple rinsed prior to filling
- Well, or other water source should have been running for a few minutes to make sure you are not getting stagnant water.
- Sample bottle needs to be full, with no air pocket. An air pocket in the sample bottle can give us incorrect results.
